Constructing Modern Knowledge

Summer Educator Institute
July 10 - 13, 2018

Amazing guest speakers & faculty

Carla Rinaldi

President of Reggio Children (Italy)

Professor Carla Rinaldi is an international leader in education for children in the early years and one of the greatest living progressive educators. Carla worked side-by-side with Loris Malaguzzi, the founder of the Reggio Emilia Approach, from 1970 until his death in 1994 in the municipal infant toddler and preschool system of Reggio Emilia, as the first pedagogical coordinator.

Paul DiMeo

TV's Extreme Makeover: Home Edition

Paulie is best known as the carpenter with attitude on ABC Television's two-time Emmy-winning *Extreme Makeover: Home Edition* and as the host of *Building Wild* on the National Geographic Channel.

James Loewen, Ph.D.

Best-selling History Writer & Sociologist

Dr. Loewen is the best-selling author of *Lies My Teacher Told Me* and other books on American history, race and teaching children to be historians.

Hosted by Gary S. Stager, Ph.D.

Internationally-respected educator, author, and edtech pioneer, Gary Stager created CMK eleven years ago.

Institute location

Constructing Modern Knowledge 2018 will be held July 10 - 13, 2018 at the Radisson Hotel in Manchester, NH, USA.

Manchester is a quaint and cool New England city enjoying quite a renaissance. In addition to our spacious learning environment inside the Radisson Hotel, fine restaurants, shops and museums are within walking distance.

A growing suburb of Boston, Manchester is a leisurely drive from most of the Northeast and mid-Atlantic states.

Manchester/Boston (MHT) International Airport is a short free shuttle bus ride from our venue and is one of the most convenient and affordable airports in the United States. Boston Logan Airport (BOS) is less than 1 hour away.

Discount hotel reservations

A block of hotel rooms has been reserved at a discounted conference rate from \$140/night at the Manchester, NH Radisson Hotel from 7/8-7/14.

Call 1-800-333-3333 or 1-603-206-4109 to make your reservation and say that you are with CONSTRUCTING MODERN KNOWLEDGE.

Registration costs \$745 before April 1st and \$845 after. Send a team at a substantial discount!

*The real power of
Constructing Modern
Knowledge emerges from
the collaborative project
development of participants.*

Where Educators Invent the Future & Reinvent Themselves

Constructing Modern Knowledge, now in its 11th year, is a mind-on institute for educators committed to creativity, collaboration and computing. Participants have the opportunity to engage in intensive computer-rich project development with peers and a world-class faculty. Inspirational guest speakers and social events round out a fantastic event.

Rather than spend days listening to a series of speakers, CMK 2018 is about action. Attendees work on personally meaningful projects and interact with educational experts concerned with maximizing the potential of each learner.

While our outstanding faculty is comprised of educational pioneers, bestselling authors and inventors of innovative educational technologies, the real power of Constructing Modern Knowledge emerges from the collaborative project development of participants.

Animation, robotics, engineering, film-making, music composition, 3D printing, programming, wearable computing, Arduino, Raspberry Pi, and storytelling are all part of the CMK 2018 mix.

Each day's program consists of a discussion of powerful ideas, mini on-demand tutorials, immersive learning adventures designed to challenge one's thinking, substantial time for project work, and a reflection period. Each year, participants dazzle each other with new ideas, materials, and innovative project development.

The learning environment is filled with stimulating "objects to think with," including a library, art supplies, tools & materials for tinkering.

21st century educators need to develop their own technological fluency and understand learning in order to meet the changing needs and expectations of their students. Constructing Modern Knowledge will help participants enhance their tech skills, expand their vision of how computers may enhance the learning environment and leave with practical ideas to use in the classroom.

Registration includes a festive conference dinner and a big night out in Boston, beginning with a reception at the world-famous M.I.T. Media Lab hosted by Professor Joseph Paradiso & Eric Rosenbaum, co-inventor of the Makey Makey.

Unleash your creativity July 10-13, 2018
